Dr. Robinson's presentation:

Schools are a microcosm of society so just as society is changing at lightning speed, so are schools in which we have the privilege of influencing our future. In Ontario we are blessed to have an internationally recognized public education system that is focussed on student learning and well-being. Our students benefit from leadership throughout the system because leadership is not a position held by one or a few, it is a practice that is nurtured throughout our system. Education, like society, is based on trust and mutual respect and our future depends on this foundation.
